

# Quantum

QUANTUM DISPENSE IS A SOFTWARE PLATFORM THAT HELPS YOU AUTOMATE UP TO 70% OF TASKS REQUIRED TO MANAGE YOUR CUSTOMER'S PRESCRIPTIONS.

Quantum delivers accuracy and efficiencies to streamline your dispensing processes.

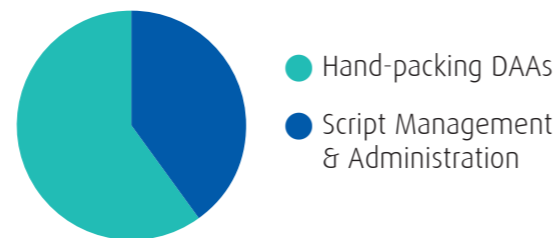

Outsourcing medication packing to MPS with Quantum is the most efficient way to manage your DAA business. The time saved can be redirected to growing your DAA business, professional services or other care areas of your pharmacy.

“Once customers were on Quantum, the administrative savings were significant. The overall benefit from integrating all of these 'small wins' is that we are starting to see the overall benefit as a 'big win'.”

Jayson Atkins, Jayson Atkins Pharmacy

More than half of the time spent on manually supplying DAAs is spent on script management, paperwork and administrative tasks.

MANUAL IN-HOUSE PACKING  
100% of DAA activity is done in-house.

## Key Product Features

### VIRTUAL MEDICINE CABINET

- The Virtual Medicine Cabinet (VMC) manages your customer's medication stock balance.

### PRESCRIPTION PROCESSING

- Quantum prompts prescriptions to be dispensed when required as per medication packed and supplied to the pharmacy from MPS.

### PRESCRIPTION REQUESTS

- Quantum generates doctor's letters to request prescriptions required and produces a PDF prescription(s) to be printed and signed by the doctor.

### MANAGING AGED CARE SUPPLY

- Quantum assists with preparation of facility orders and enables scanning of items before dispatch to create an itemised delivery docket.

### OUTSOURCED

70% of DAA activity still remains in-house.

### OUTSOURCED TO MPS WITH QUANTUM

20% of DAA activity remains in-house.
