

# Opening Packettes

1

Prepare to remove the MPS Packette from the dispenser

First **fold** along the perforation line to assist easy separation of the packette from the roll.

2

Separate the Packette from the dispenser

Separate from the dispenser by tearing along the perforated edge **from right to left**.

3

Tear open the MPS Packette

To open simply tear the packette **from left to right** (from the sealed edge) across the barcode.
